

# MUNITORUM FIELD MANUAL

## VERSION 4.1

Welcome to the Munitorum Field Manual. This document contains the most up-to-date points values that should be used in your games, covering all the factions in Warhammer 40,000.

You can use this document to determine the points (pts) value of each unit in your army. Each entry lists the increments to a unit's size that incur different points costs. This may change with the addition of each individual model (e.g. 1 model, 2 models, 3 models, etc.) or it may be presented with a lower and upper limit to a unit's Starting Strength (e.g. one cost for 5 models, another cost for 10 models). In the latter case, your units can contain a number of models in between these limits, but you must still pay the maximum points cost for a unit that starts the game with more than its minimum number of models. You can learn more about using points to muster your army on pages 55-56 of the Core Rules.

This document lists the points values for every unit that, at the time of publication, is supported for Warhammer 40,000 – including those available from Forge World – and these replace any points values published previously. It will be updated periodically to reflect the latest publications and to support game balance.

### Increases and Decreases

Entries that have had their values increased or decreased since the last iteration of this document are highlighted in red or green respectively, with the size of increase or decrease shown in parentheses before each changed value. Where Codex points appear for the first time in this document, such changes are highlighted when they differ from those printed in that book.

### Crusade – Supply Limit Exceeded

As a result of the points updates in this document, Crusade players may find that the combined points value of all the units currently on their Order of Battle now exceeds their current Supply Limit. If this is the case, you can increase your Supply Limit so that it is equal to the combined points value of all the units currently on your Order of Battle (doing so does not require the use of any Requisitions or Requisition points).

WARHAMMER LEGENDS

# LEGENDS FIELD MANUAL

The points values shown below are for all of your favourite Warhammer Legends datasheets and are designed to be used in Legends Approved battles. Before playing a Legends Approved battle, remember to confirm with all players or event organisers if Warhammer Legends datasheets will be in play.

You can use the points values of the following Legends units with units and points values from the Munitorum Field Manual when assembling your armies. You can learn more about using points to muster your army on pages 55-56 of the Core Rules.
