STEEL HAMMER

Whilst infantry forms the backbone of many Astra Militarum forces, heavy armour often serves as the mailed fist. Venerable battle tanks thunder across the battlefield, propelled by promethium-hungry engines, their steel tracks grinding a path across all but the most formidable obstacles. The largest mechanical monstrosities – commanded by veteran tank officers and aces – are true war behemoths: super-heavy vehicles shielded by reinforced armour and bristling with enough weapons to reduce enemy armies to smouldering ruin. With these ironclad giants at the fore, an Astra Militarum armoured spearhead crashes over trench lines under heavy fire, crushing infantry to bloody pulp beneath its tracks and reducing any armoured opposition to fragments of twisted scrap metal with roaring cannonades. Before such a tide of heavy metal fury, enemies are struck dumb with terror, their cover toppled or blasted to atoms, exposing them to the full wrath of the Emperor's steel hammer.

DETACHMENT RULE

CEASELESS CANNONADE

The heaviest Astra Militarum vehicles are adamantine behemoths whose armour is almost impenetrable. The crews of these colossal war engines need have no concern for the integrity of their vehicles, unleashing even the most violently destructive ordnance at point-blank range.

Each time an **ASTRA MILITARUM TITANIC** or **ASTRA MILITARUM SQUADRON** unit from your army is selected to shoot, models in that unit can target enemy units within Engagement Range of that unit (including with Blast weapons), provided no other friendly units are also within Engagement Range of that enemy unit. When doing so, such models do not suffer the penalty to their Hit rolls for being within Engagement Range of one or more enemy units (excluding attacks made with Indirect Fire weapons).

KEYWORDS

In the Muster Armies step, you can select one or more **ASTRA MILITARUM TITANIC** units from your army to gain the **CHARACTER** keyword.

Designer's Note: *This means that the selected units can be given Enhancements, and one of them can be selected as your **WARLORD**.*

ENHANCEMENTS

BATTALION COMMANDER

High-ranking officers of armoured regiments may operate super-heavy tanks as command vehicles, their orders blaring from hull-mounted loud hailers or crackling over internal vox-channels.

ASTRA MILITARUM TITANIC CHARACTER model only. The bearer has the Voice of Command ability and the **OFFICER** keyword, and can issue up to 2 Orders to **ASTRA MILITARUM TITANIC** and **SQUADRON** units.

TITAN KILLER

Seeking to add another kill marking to their war machine, this glory-hungry tank commander seeks out and engages only the heaviest enemy assets.

ASTRA MILITARUM TITANIC CHARACTER model only. Each time the bearer makes a ranged attack, you can re-roll the Damage roll.

ENGINE SPEAKER

Intimately attuned to the machine spirits of Astra Militarum vehicles, this Tech-Priest administers rites and rituals, seeking to draw additional performance from engines.

ASSAULT HATCHES

Ramps and hatches slam down on all sides of this titanic vehicle, enabling infantry to surge forth and overwhelm the enemy.

ASTRA MILITARUM TITANIC CHARACTER TRANSPORT model only. Each time a unit disembarks from the bearer after it has made a Normal move, that unit is still eligible to declare a charge this turn.

ARMoured INFANTRY

The rattle of tracks and the hammering of gunfire heralds the advance of armoured infantry. These forces are ideally suited to aggressively seizing strategic objectives, reinforcing buckling Imperial lines, responding to enemy attacks or capitalising on strategic gains. The combination of well-trained and equipped infantry with armoured transports is tried and tested. Transport vehicles lend their passengers speed and operational range far in excess of infantry operating on foot, provide protection on the way into battle, and offer fire support once the infantry have disembarked. In return, the troops can dig in, hold ground, and protect their transports from the enemy. Most often, the Astra Militarum deploys its armoured infantry elements at company strength. They either work hand in mailed gauntlet with tank formations or as massed assault elements which – when properly supported – can grind even the most elite foes into the dirt and secure the field for the armies of Mankind.

DETACHMENT RULE

SQUADRON COMMAND

Officers in charge of motorised formations are as well versed in armoured combat as in infantry operations.

Add **SQUADRON** to the list of units each **OFFICER** unit from your army can issue Orders to. Add the Order below to those listed in the Voice of Command ability.

ORDER

ON MY SIGNAL

The most effective commanders know how and when to make use of their armoured fighting vehicles' speed.

This Order can only be issued to **ARMoured SKIRMISHER** units (see below). Each time an enemy unit ends a Normal or Advance move within 9" of this unit, this unit can make a Normal move of up to D6". Each unit can only move in this way once per turn.

KEYWORDS

ASTRA MILITARUM SQUADRON units from your army have the **ARMoured SKIRMISHER** keyword (excluding **ARTILLERY** units and units containing one or more models with a Wounds characteristic of 13 or higher).

ENHANCEMENTS

GRAND STRATEGIST

Able to see the broader strategic picture, this experienced officer deploys their assets sparingly and with practised precision.

OFFICER model only. After both players have deployed their armies, if the bearer's unit (or any **TRANSPORT** it is embarked within) is on the battlefield, select up to two units with the **REGIMENT** or **SQUADRON** keywords from your army and redeploy them. When doing so, you can set those units up in Strategic Reserves, regardless of how many units are already in Strategic Reserves.

TARGET: That **ARMoured SKIRMISHER** unit.

EFFECT: Select one enemy unit hit by one or more of those attacks. WHEN: Your Shooting phase.

TARGET: One **ASTRA MILITARUM** unit from your army that disembarked from a **TRANSPORT** this turn and has not been selected to shoot this phase.

EFFECT: Until the end of the phase, each time a model in your unit makes an attack, add 1 to the Wound roll.

BRIDGEHEAD STRIKE

When the Astra Militarum launch rapid offensives, their attack routes are typically planned well in advance. Should a crucial bridge, mountain pass, supply depot or other essential landmark lie along their path, an elite force may be tasked to secure it ahead of the main push. The elite warriors of the Militarum Tempestus or equivalent specialist companies like the Cadian Kasrkin most often undertake such missions. Deploying via aircraft, grav-chutes or columns of fast armoured transports, the force hits their target zone hard, relying upon firepower and surprise to dislodge enemy defenders. With the site secured, the strike forces must hold their prize against whatever the foe hurls at them until the main strength of the Imperial host reaches their position and relieves them.

DETACHMENT RULE

ONLY THE BEST

The soldiers who make up such targeted strike forces are hand-picked for their excellence and – where possible – provided with rigorous additional training to prepare them for conditions and foes on the ground.

Each time an **ASTRA MILITARUM INFANTRY** model from your army makes a ranged attack, re-roll a Hit roll of 1.

FIRE ZONE PURGE

Key to this force's mission is the swift purgation of local enemy forces through sudden deployment and focused firefights. As such, whether they hit the ground from a low-altitude drop or deploy from armoured transports, the soldiers of this formation are trained to find targets and start shooting the instant the foe is in sight.

Each time a **MILITARUM TEMPESTUS** model from your army makes a ranged attack in a turn in which it was set up on the battlefield from Reserves or it disembarked from a **TRANSPORT**, add 1 to the Hit roll.

KEYWORDS

If a **MILITARUM TEMPESTUS OFFICER** model from your army is your **WARLORD**, **TEMPESTUS SCIONS** units from your army gain the **BATTLELINE** keyword, and while such a unit is not Battle-shocked, add 1 to the Objective Control characteristic of **TEMPESTUS SCIONS** models in that unit.

ENHANCEMENTS

BOMBAST-CLASS VOX-ARRAY

This device is a precious example of an omni-frequency master vox-array manufactured on the long-lost forge world of Urvax. It facilitates the rapid dissemination of orders throughout the entire strike force.

Locked to the designator runes of this officer's dropship and heavily warded against interference, this predeployed beacon ensures they land swiftly and on target.

MILITARUM TEMPESTUS OFFICER model only. The bearer's unit can be set up using the Deep Strike ability in the Reinforcements step of your first, second or third Movement phase, regardless of any mission rules.

SHROUD PROJECTOR

Believed to be the roost of protective machine spirits, this small tech-ossuary is worn on a chain around the neck and obfuscates the bearer and their comrades when moving.

MILITARUM TEMPESTUS OFFICER model only. Enemy units cannot use the Fire Overwatch Stratagem to shoot at the bearer's unit.

ADVANCE AUGURY

This tactically astute officer insists on orbital sensor sweeps and psy-scrying ahead of the operation's commencement, providing vital intelligence.

INFANTRY OFFICER model only. After both players have deployed their armies, select up to three **REGIMENT** units from your army and redeploy them. When doing so, you can set those units up in Strategic Reserves, regardless of how many units are already in Strategic Reserves.

EFFECT: Until the end of the phase, when your unit is set up on the battlefield using the Deep Strike ability, it can be set up anywhere on the battlefield that is more than 6" horizontally away from all enemy units.

RESTRICTIONS: Until the end of the turn, your unit is not eligible to declare a charge.

EFFECT: Until the end of the phase, your unit is eligible to shoot in a turn in which it Advanced.

TARGET: That **ASTRA MILITARUM INFANTRY** unit.

EFFECT: Select one enemy unit hit by one or more of those attacks that is visible to your unit. Until the end of the phase, that enemy unit cannot have the Benefit of Cover.

1CP

AERIAL EXTRACTION

BRIDGEHEAD STRIKE – EPIC DEED STRATAGEM

Such swift manoeuvres are vital to retaining command of the developing tactical situation, whether gunships are peeling off to strike at the enemy from a fresh angle or infantry being extracted by dropcraft for rapid redeployment.

WHEN: End of your opponent's Fight phase.

TARGET: One **VALKYRIE** unit from your army that is not within Engagement Range of one or more enemy units, or one **ASTRA MILITARUM** unit from your army that has the Deep Strike ability and is not within Engagement Range of one or more enemy units.

EFFECT: Remove your unit from the battlefield and place it into Strategic Reserves.

1CP

ON MY POSITION

BRIDGEHEAD STRIKE – EPIC DEED STRATAGEM

Circling Aeronautical Imperialis strike fighters wait above to launch strafing runs should the attack falter. In extremis, these assets can be called down upon Imperial positions in danger of being overrun, affording soldiers the desperate dignity of taking their enemies with them into death.

WHEN: End of your opponent's Fight phase.

TARGET: One **REGIMENT INFANTRY** unit from your army that is within Engagement Range of one or more enemy units.

EFFECT: Roll one D6 for each enemy unit within Engagement Range of your unit: on a 2+, that enemy unit suffers D6 mortal wounds. Then, your unit suffers 3D3 mortal wounds.

FAQS

Q: *Can an Officer targeted with the Inspired Command Stratagem or Snap To It Stratagem still issue an Order if it has already issued a number of Orders during that battle round equal to the number listed on its datasheet? For example, if a Cadian Castellan issues their maximum number of Orders during my Command phase, can I use the Inspired Command Stratagem in my opponent's next Command phase to issue another Order with that model, even if it is the same battle round?*

A: Yes.

Q: *If a unit becomes affected by the same Order multiple times, do those Orders affect that unit multiple times?*

A: No.

Q: *Can the Reinforcements! Stratagem be used on a unit that is Battle-shocked?*

A: No.

Q: *If a unit contains two models equipped with a vox-caster, can I attempt to generate 1CP twice when the bearer's unit is targeted with a Stratagem?*

A: No.

Q: *Can I attempt to generate 1CP from a unit containing a vox-caster, when targeting that unit with the Reinforcements! Stratagem?*

A: No.

Q: *When using the Creeping Barrage ability, how do you resolve the maximum number of units that can be shaken?*

A: You roll one D6 for each enemy unit that is more than 12" from every model from your army that is on the battlefield, in an order of your choosing, one at a time. Once the maximum number of enemy units for the battle size have been shaken, stop rolling for any additional units.

Q: *When an Ogryn Bodyguard joins a Militarum Tempestus Command Squad, can the unit set up using the Deep Strike ability?*

A: No, as the Ogryn Bodyguard model does not have the Deep Strike ability.

MUNITORUM SERVITORS

WARHAMMER LEGENDS

Lobotomised and augmented, Servitors attend the Departmento Munitorum in countless menial ways. These cybernetic living tools often form servile retinues for Enginseers, using their industrial servo-arms to repair hulking tanks, but unhesitatingly turning them on the foe should they draw too near.

WARGEAR OPTIONS

- Up to 2 models can each have their Servitor's servo-arm replaced with one of the following:
 - 1 heavy bolter
 - 1 multi-melta
 - 1 plasma cannon

UNIT COMPOSITION

SERVITOR RETINUE

At the start of the Declare Battle Formations step, this unit can join one other unit from your army that is being led by a **TECH-PRIEST ENGINEER** (a unit cannot have more than one **MUNITORUM SERVITORS** unit joined to it). If it does, until the end of the battle, every model in this unit counts as being part of that Bodyguard unit, and that Bodyguard unit's Starting Strength is increased accordingly.
