

IMPERIAL AGENTS

FACTION PACK: VERSION 1.1

On the following pages you will find additional rules and clarifications that supplement your Codex, from extra Detachments and datasheets to FAQs and errata.

The FAQs and Errata section logs changes to printed products. New or revised text is **presented in red**, with a **text highlight** applied to revisions made previously (excluding passages that were added or replaced in full).

Points values for your faction are presented in the Munitorum Field Manual, and wider improvements to the balance of Warhammer 40,000 (which may include changes to your faction's rules) are presented in the Balance Dataslate. All such points values and rules changes are also updated live in the Warhammer 40,000 app.

VEILED BLADE ELIMINATION FORCE

The lethally efficient agents of the Officio Assassinorum ordinarily operate alone when stalking their prey. However, when assigned a particularly well-protected or formidable target, assassins from various temples may be brought together alongside other assets drawn from the military, Ecclesiarchal or judicial wings of the Imperium. These bespoke formations possess enough firepower to break through the target's defences and ensure the killing blow is landed.

DETACHMENT RULE

EXTREMIS SANCTION

When pursuing an extremis-level target, the agents of the Officio Assassinorum are expected to push their altered minds and bodies beyond the limits of endurance. Additional equipment, augmentation and ammunition may be provided to complete the task.

OFFICIO ASSASSINORUM units from your army can use the Overkill, Soulless Horror and Shieldbreaker abilities twice per battle, instead of once per battle (but cannot use such an ability more than once in the same battle round).

When mustering your army, each **OFFICIO ASSASSINORUM** unit from your army has the relevant Extremis ability shown on the right, and you must increase the points cost of each of those units by the amount shown. If this causes your army to exceed the points limit for the battle you are playing, you cannot include that unit in your army.

EXTREMIS ABILITIES

DECOY TARGETS +40 PTS

The agents of the Callidus Temple are known to utilise vat-grown doubles to confound their foes.

CALLIDUS ASSASSIN models only. Twice per battle, in your Movement phase, you can select one other friendly **INFANTRY** model that is on the battlefield and not within Engagement Range of one or more enemy units. The selected model is destroyed (ignoring any rules that are triggered when a model is destroyed) and this model is removed from the battlefield and set up again as close as possible to where that destroyed model was and not within Engagement Range of one or more enemy units. This ability cannot be used more than once in the same battle round.

ESOTERIC EXPLOSIVES..... +40 PTS

This Culexus operative has been outfitted with various grenades tailored to destroy their assigned targets.

CULEXUS ASSASSIN models only. Each time this model is targeted with the Grenades Stratagem, 1 mortal wound is inflicted for each D6 roll of 3+ instead of for each 4+.

INTRANEURAL BIOTECH+35 PTS

This Eversor agent's neurons have been surgically spliced to enhance awareness and speed of thought.

EVERSOR ASSASSIN models only. Once per battle round, you can target this model with the Heroic Intervention or Counter-offensive Stratagem for OCP, and can do so even if you have already used that Stratagem on a different unit this phase.

MICROMELTA ROUNDS +45 PTS

These projectiles are tipped with miniaturised melta charges that detonate on impact.

VINDICARE ASSASSIN models only. This model's exitus rifle has the [ANTI-MONSTER 4+] and [ANTI-VEHICLE 4+] abilities.

PRIME TARGET

VEILED BLADE ELIMINATION FORCE – BATTLE TACTIC STRATAGEM

A primary target has been revealed. All efforts must be made to ensure the kill.

WHEN: Your Shooting phase or the Fight phase.

TARGET: One **AGENTS OF THE IMPERIUM** unit from your army that has not been selected to shoot or fight this phase.

EFFECT: Until the end of the phase, each time a model in your unit makes an attack that targets a **CHARACTER** unit, re-roll a Wound roll of 1. If that attack is made by an **OFFICIO ASSASSINORUM** model and it targets the enemy **WARLORD**, you can re-roll the Wound roll instead.

1CP

HYPERSTIMMS

VEILED BLADE ELIMINATION FORCE – BATTLE TACTIC STRATAGEM

Unenhanced mortal bodies are routinely – and unknowingly – dosed with experimental stimulant cocktails that serve to reinforce their resilience, at least in the short term.

WHEN: Your opponent's Shooting phase or the Fight phase, just after an enemy unit has selected its targets.

TARGET: One **AGENTS OF THE IMPERIUM CHARACTER** unit from your army that was selected as the target of one or more of the attacking unit's attacks.

EFFECT: Until the end of the phase, add 1 to the Toughness characteristic of models in your unit. In addition, if it is an **EVERSOR ASSASSIN** unit, until the end of the phase, it has the Feel No Pain 4+ ability.

2CP

WILL-SAPPING SALVO

VEILED BLADE ELIMINATION FORCE – STRATEGIC PLOY STRATAGEM

Aiming concentrated volleys of fire toward an exceptionally resilient foe, these agents erode the will of their target, increasing their vulnerability to the concentrated psychic onslaughts of the Culexus Assassin's animus speculum.

WHEN: Your Shooting phase.

TARGET: One **AGENTS OF THE IMPERIUM INFANTRY** unit from your army that has not been selected to shoot this phase.

EFFECT: Until the end of the phase, ranged weapons equipped by models in your unit have the **[SUSTAINED HITS 1]** ability. In addition, if it is a **CULEXUS ASSASSIN** unit, until the end of the phase, change the Damage characteristic of ranged weapons equipped by models in your unit to 3.

1CP

ORBITAL OVERSIGHT

VEILED BLADE ELIMINATION FORCE – STRATEGIC PLOY STRATAGEM

Aided by orbiting assets, when the assault begins, voidships flood communication networks with jamming frequencies, fire screening bombardments and otherwise mask the agents' approach.

WHEN: Your opponent's Shooting phase, just after an enemy unit has selected its targets.

TARGET: One **AGENTS OF THE IMPERIUM INFANTRY** unit from your army that was selected as the target of one or more of the attacking unit's attacks.

EFFECT: Until the end of the phase, your unit can only be selected as the target of a ranged attack if the attacking model is within 18", or, if your unit has the Lone Operative ability, if the attacking model is within 6".

1CP

BLIND GRENADES

VEILED BLADE ELIMINATION FORCE – STRATEGIC PLOY STRATAGEM

These grenades release thick black smoke and broad-spectrum electromagnetic chaff that disrupt vision and foul augury equipment upon detonating.

WHEN: Your opponent's Charge phase, just after an enemy unit has declared a charge.

TARGET: One **AGENTS OF THE IMPERIUM GRENADES** or **VINDICARE ASSASSIN** unit from your army that was selected as one of the targets of that charge and is not within Engagement Range of one or more enemy units.

EFFECT: Until the end of the phase, subtract 1 from Charge rolls made for that enemy unit, or, if your unit is a **VINDICARE ASSASSIN**, subtract 2 from Charge rolls made for that enemy unit instead.

1CP

ENSNARING TRAP

VEILED BLADE ELIMINATION FORCE – STRATEGIC PLOY STRATAGEM

The eyes of the Officio Assassinorum are everywhere. As the foe turns to flee, the noose tightens, agents already forewarned of enemy movements and moving swiftly to cut off all avenues of retreat.

WHEN: End of your opponent's Charge phase.

TARGET: One **AGENTS OF THE IMPERIUM INFANTRY** unit from your army that is within 6" of one or more enemy units and would be eligible to declare a charge against one or more of those enemy units.

EFFECT: Your unit can declare a charge. When doing so, you must select one or more of those enemy units as the targets of that charge, and your unit does not receive a Charge bonus this turn. In addition, if it is a **CALLIDUS ASSASSIN** unit and it makes a Charge move as a result of this Stratagem, until the end of the turn, each time a model in your unit makes a melee attack, add 1 to the Wound roll.

ABILITIES

FACTION: Assigned Agents

Death to the Alien: Each time a model in this unit makes an attack, re-roll a Hit roll of 1. If the target of that attack does not have the **IMPERIUM** or **CHAOS** keywords, you can re-roll the Hit roll instead.

Kill Team: Each time an attack targets this unit, if it contains models with different Toughness characteristics, until the attacking unit has finished making its attacks, use the Toughness characteristic of the majority of the models in that unit when determining what roll is required for that attack to successfully wound. If two or more Toughness characteristics are tied for majority, use the highest value.

For the purposes of determining which models in this unit can embark within a **TRANSPORT**, Gravis Veteran models take up the space of 2 models, but can otherwise embark within any **TRANSPORT** their unit can embark within, even though similar models in other units have the **GRAVIS** keyword.

Designer's Note: While the abstractions in the above rule cause some models to behave differently to similar models in other units, they are designed to minimise complicated Transport rules.

➤ Before selecting targets for this weapon, select one of its profiles to make attacks with.

DAEMONHOST

WARHAMMER LEGENDS

Daemonhosts are empyric spirits bound by rite to the body of a mortal. Some serve as indentured minions in an Inquisitor's retinue with a host of otherworldly abilities. It is a brave or foolish decision indeed to make a Daemonhost. Spirits that break free take delight in avenging themselves on their captors.

If it does, until the end of the battle, every model in this unit counts as being part of that Bodyguard unit, and that Bodyguard unit's Starting Strength is increased accordingly.

KILL TEAM ABILITY

Some **DEATHWATCH** units have the Kill Team ability, which is detailed below, and referenced on the datasheets.

Kill Team: Each time an attack targets this unit, if it contains models with different Toughness characteristics, until the attacking unit has finished making its attacks, use the Toughness characteristic of the majority of the models in that unit when determining what roll is required for that attack to successfully wound. If two or more Toughness characteristics are tied for majority, use the highest value.

For the purposes of determining which models in this unit can embark within a **TRANSPORT**, Kill Team Terminator models, Kill Team Outrider models, Kill Team Biker models and models equipped with a jump pack each take up the space of 2 models, but can otherwise embark within any **TRANSPORT** their unit can embark within, even though similar models in other units have the **TERMINATOR**, **MOUNTED** or **JUMP PACK** keywords.

For the purposes of interacting with terrain features, all models in units with this ability are considered **INFANTRY** models, even though similar models in other units may have the **MOUNTED** or **JUMP PACK** keywords.

Designer's Note: While the abstractions in the above rule cause some models to behave differently to similar models in other units, they are designed to minimise complicated movement, **TRANSPORT** and **Benefit of Cover** rules.
