Note that you cannot do so if you've already used that play during this turning point.
- Use the Adjust Doctrine firefight play for OCP if this operative is in the killzone and isn't within control range of enemy operatives.

ANGEL OF DEATH FACTION RULE

CHAPTER TACTICS

Each Space Marine Chapter is a martial brotherhood with its own combat philosophies, suited to the unique skills and temperaments of its battle-brothers. These tenets of war may be clothed in esoteric rituals built up over thousands of years, but remain as brutally effective as when they were first laid down.

When selecting your kill team, select a primary and secondary **CHAPTER TACTIC** for friendly **ANGEL OF DEATH** operatives to gain for the battle. Multiple instances of the same **CHAPTER TACTIC** aren't cumulative.

***Designer's Note:** If you're playing a series of games, i.e. a campaign or tournament, you must select the same primary and secondary **CHAPTER TACTIC** for every battle (you can still change the secondary with the Adaptive Tactics strategy play).*

CHAPTER TACTIC OPTIONS ARE PRESENTED ON THEIR OWN CARD

ANGEL OF DEATH FACTION RULE

CHAPTER TACTICS

1. AGGRESSIVE

This operative's melee weapons have the Rending weapon rule.

2. DUELLER

Whenever this operative is fighting or retaliating, each of your normal successes can block one unresolved critical success (unless the enemy operative's weapon has the Brutal weapon rule).

3. RESOLUTE

You can ignore any changes to this operative's APL stat and it isn't affected by enemy operatives' Shock weapon rule.

CONTINUES ON OTHER SIDE ▶

4. STEALTHY

Whenever an operative is shooting this operative, if you can retain any cover saves, you can retain one additional cover save, or you can retain one cover save as a critical success instead. This isn't cumulative with improved cover saves from Vantage terrain.

5. MOBILE

- This operative can perform the **Fall Back** action for 1 less AP.
- This operative can perform the **Charge** action while within control range of an enemy operative, and can leave that operative's control range to do so (but then normal requirements for that move apply).

6. HARDY

Whenever an operative is shooting this operative, defence dice results of 5+ are critical successes.

CONTINUES ON OTHER SIDE ▶

7. SHARPSHOOTER

Whenever this operative is shooting during an activation in which it hasn't performed the **Charge**, **Fall Back** or **Reposition** action, its bolt weapons have the Accurate 1 and Severe weapon rules.

8. SIEGE SPECIALIST

This operative's ranged weapons have the Saturate weapon rule. Whenever this operative is fighting or retaliating, enemy operatives cannot assist.

ANGEL OF DEATH☠ FACTION RULE

ASTARTES

These genetically modified superhumans are made for one purpose: war.

During each friendly **ANGEL OF DEATH☠** operative's activation, it can perform either two **Shoot** actions or two **Fight** actions. If it's two **Shoot** actions, a bolt weapon must be selected for at least one of them, and if it's a bolt sniper rifle or heavy bolter, 1 additional AP must be spent for the second action if both actions are using that weapon.

Each friendly **ANGEL OF DEATH☠** operative can counteract regardless of its order.

ANGEL OF DEATH☠ STRATEGY PLOY

COMBAT DOCTRINE

Space Marines hold the teachings of the Codex Astartes in highest esteem, employing its flexible combat doctrines to annihilate their enemies.

Select one **COMBAT DOCTRINE** from those presented below. Whenever a friendly **ANGEL OF DEATH☠** operative is x, its weapons have the Balanced weapon rule. X is the **COMBAT DOCTRINE** you selected.

- **Devastator Doctrine:** Shooting an operative more than 6" from it.
- **Tactical Doctrine:** Shooting an operative within 6" of it.
- **Assault Doctrine:** Fighting or retaliating.

ANGEL OF DEATH STRATEGY PLOY

AND THEY SHALL KNOW NO FEAR

Space Marines possess extraordinary courage and are utterly unflinching in the face of terrifying horrors and overwhelming odds.

You can ignore any changes to the stats of friendly **ANGEL OF DEATH** operatives from being injured (including their weapons' stats).

ANGEL OF DEATH STRATEGY PLOY

ADAPTIVE TACTICS

There are few more tactically flexible warriors than the Adeptus Astartes. Supplementing the teachings of the Codex Astartes with their own experience, Space Marines may adjust their strategies at a moment's notice.

Change your secondary **CHAPTER TACTIC**. Note this ploy only lasts until the end of the turning point, at which point your original secondary **CHAPTER TACTIC** returns.

ANGEL OF DEATH STRATEGY PLOY

INDOMITUS

This is the Era Indomitus. The Imperium wages galaxy-spanning crusades to drive back the horrors that plague it, and the battle-brothers of the Adeptus Astartes are spurred on by this righteous purpose.

Whenever an operative is shooting a friendly **ANGEL OF DEATH** operative, if you roll two or more fails, you can discard one of them to retain another as a normal success instead.

ANGEL OF DEATH FIREFIGHT PLOY

ADJUST DOCTRINE

Adeptus Astartes kill teams adapt their strategies on the fly to overcome the foe. Swiftly traded hand signals and abrupt vox exchanges herald a shift in doctrine.

Use this firefight ploy during a friendly **ANGEL OF DEATH** operative's activation, before or after it performs an action. If you've used the Combat Doctrine strategy ploy during this turning point, change the **COMBAT DOCTRINE** you selected.

ANGEL OF DEATH FIREFIGHT PLOY

TRANSHUMAN PHYSIOLOGY

The genetically modified physiology of a Space Marine is capable of resisting wounds that would kill a lesser being.

Use this firefight ploy when an operative is shooting a friendly **ANGEL OF DEATH** operative, in the Roll Defence Dice step. You can retain one of your normal successes as a critical success instead.

ANGEL OF DEATH FIREFIGHT PLOY

SHOCK ASSAULT

The Adeptus Astartes strike with exceptional speed and strength, the roar of chainswords and brutal assaults spelling death for their foes.

Use this firefight ploy when a friendly **ANGEL OF DEATH** operative is performing the **Fight** action during an activation in which it performed the **Charge** action, at the start of the Resolve Attack Dice step. Until the end of that action:

- Its melee weapon has the Shock weapon rule.
- The first time you strike during that sequence, inflict 1 additional damage (to a maximum of 7).

ANGEL OF DEATH FIREFIGHT PLOY

WRATH OF VENGEANCE

When roused to anger, a battle-brother of the Adeptus Astartes may be spurred to acts of extraordinary strength and athleticism.

Use this firefight ploy when a friendly **ANGEL OF DEATH** operative is counteracting. It can perform an additional 1AP action for free during that counteraction, but both actions must be different.

ANGEL OF DEATH FACTION EQUIPMENT

PURITY SEALS

Awarded by the Chapter's Chaplains, purity seals are inscribed with blessings and inspire the bearer to fight with increased vigour.

Once per turning point, when a friendly **ANGEL OF DEATH** operative is shooting, fighting or retaliating, if you roll two or more fails, you can discard one of them to retain another as a normal success instead.

ANGEL OF DEATH FACTION EQUIPMENT

CHAPTER RELIQUARIES

Many Space Marines bear macabre relics taken from the bodies of their fallen. Those who bear these inspirational items fight all the harder to honour the sacrifice of their battle-brothers.

You can use the Wrath of Vengeance firefight play for OCP if the specified friendly operative has an Engage order.

ANGEL OF DEATH

FACTION EQUIPMENT

TILTING SHIELDS

As well as displaying company colours and personal heraldry, a Space Marine's tilting plate serves to protect the bearer in the press of melee combat.

Once per turning point, when a friendly **ANGEL OF DEATH** operative is fighting or retaliating, after your opponent rolls their attack dice, but before re-rolls, you can use this rule. If you do, your opponent cannot retain attack dice results of less than 6 as critical successes during that sequence (e.g. as a result of the Lethal, Rending or Severe weapon rules).

ANGEL OF DEATH FACTION EQUIPMENT

AUSPEX

Auspexes come in many forms. These scanning devices can detect motion, analyse atmospheric conditions and reveal heat signatures.

Once per turning point, when a friendly **ANGEL OF DEATH** operative performs the **Shoot** action and you're selecting a valid target, you can use this rule. If you do, until the end of the activation/counteraction, enemy operatives within 8" of that friendly operative cannot be obscured.

ANGELS OF DEATH OPERATIVES

Genetically modified transhuman warriors, Space Marines are amongst Humanity's most elite fighting forces. Angels of Death kill teams are composed of elite specialists trained in myriad forms of combat, who are capable of overcoming almost any foe.

SPACE MARINE CAPTAIN

To reach the rank of Captain, a Space Marine must master war. They are equally adept at conducting planet-spanning military campaigns as they are at dispatching foes in expertly fought duels.

ASSAULT INTERCESSOR SERGEANT

These mission leaders understand the optimal moment to unleash charges. They are exemplars in the press of melee, rending foes in twain with their deadly close combat weapons.

INTERCESSOR SERGEANT

Intercessor Sergeants lead their teams in levelling salvos of firepower against targets in ever-changing killzones. They often carry specialist weaponry into the fray to support their battle-brothers.

ASSAULT INTERCESSOR WARRIOR

Protected by Mk X Tacticus armour, Assault Intercessor Warriors charge into battle swinging large chainswords and firing mass-reactive shells from their pistols.

ASSAULT INTERCESSOR GRENADIER

Equipped with an array of deadly grenades, these specialists provide close-range support when facing swarms of lesser foes or heavily armoured targets.

INTERCESSOR WARRIOR

Intercessor Warriors lay down punishing volleys of fire from their bolt rifles. Their tactics and wargear are adaptable to countless situations, making them a core asset for any Intercession Squad.

INTERCESSOR GUNNER

These specialists provide long-range supporting fire from their rifle's underslung auxiliary grenade launcher. They are capable of delivering explosive charges that inflict maximum devastation on the most densely defended or shielded positions.

ELIMINATOR SNIPER

Eliminators wield specialised sniper rifles with ammunition for every enemy. These range from heavy-cored Mortis rounds that make a mockery of armour, to explosive fragmentation shells that devastate clustered targets.

HEAVY INTERCESSOR GUNNER

Heavy Intercessors are akin to walking gun emplacements. Their heavy bolters allow them to shatter enemies with punishing fusillades of explosive fire, either sweeping over massed troops or in focused volleys.
