

WARHAMMER UNDERWORLDS: RIVALS FORMAT RULES

Organised Play format rules are designed to ensure the ongoing balance of Warhammer Underworlds in a tournament and league setting in addition to defining which products are valid for tournament and league play. This format document is regularly updated with new warbands and Rivals decks.

In the Rivals format, players pick a pre-built 32-card deck known as a Rivals deck. A player's Rivals deck is made from cards that only feature that deck's unique symbol (denoted in the top right-hand corner of each card), which means if you have at least one Rivals deck and one warband from the list below, you have everything you need to join in with this competitive, accessible format.

WARBANDS

A player can pick any Warhammer Underworlds warband from the following seasons, as denoted by its season icon, to be used in the Rivals format:
